

Fully organic nutrient  
perfect for vigorous growth

# MEDI ONE

## WHAT IT IS:

Medi One is an organic fertilizer formulated for the medical grower to provide plants with readily available NPK and micronutrients. This product works to sustain healthy and vigorous growth throughout the plant's life.

## BENEFITS:

Formulated with readily available macro and microelements, Medi One provides your plants with the benefits of a fully balanced nutrient system in one easy-to-apply bottle for your soilless and coco mediums.

Medi One contains a carefully engineered blend of Nitrogen, Phosphate, Potassium, Calcium, Iron, Copper, Molybdenum Magnesium, Sulfur, Boron, Manganese, and Zinc.

## DIRECTIONS:

Shake bottle well prior to use. Apply the product at a rate of 1-5ml/L (4-19ml/gal) to your nutrient reservoir twice per week. Adjust pH to between 5.8 and 6.3. Refer to the feed chart on the back of the bottle for application rates during each stage of plant growth and to our Medi One Feed Program to achieve the best results.

## WHAT IT DOES:

Medi One is an organic, complete one-part system used throughout the grow and bloom stages. Formulated for the organic medical grower, Medi One provides readily available macro and microelements that guarantee immediate results. When using this product, you can expect to see vigorous vegetative growth and resinous, aromatic floral production in the bloom stage.
