

CO₂

Carbon dioxide

Simple set up guide.

Get your CO₂ box set up in 7 simple, easy to follow steps

Step 1: Open the box and remove the bag.

Step 2: Unscrew the white lid anti-clockwise.

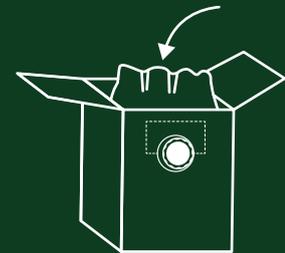

Step 3: Remove the blue security seal.

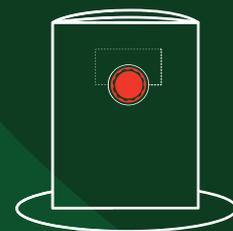

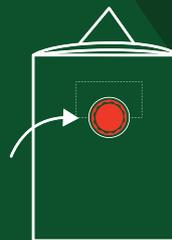

Step 4: Add 1 Litre of tap water to the bag.

Step 5: Replace the white lid and shake for 30 seconds.

Step 6: Put the bag in the box, perforate the dotted hole & position the white lid over the opening.

Step 7: Replace the white lid with the red one & close the box. Your newly set up CO₂ box can be placed on the floor, or hung from the ceiling
